

Microsoft Internship Experiences

Name *

Sanket Tilotkar

Group Fly Round

There were 2 questions which we suppose to solve and write the solution(code/pseducode) on paper.

Both the questions were very easy.

I solved both of them in MOST OPTIMISED way and wrote complete code.

I got REJECTED :(

Things which could be the reason of rejection:

1. I didnt write proper comments
2. I didnt write my approach
3. I used helper functions(They expect the problem to be solved in single function)
4. I used few global variables
